### **ABSTRACT**

FlexSim is excited to unveil FlexSim 2018 at the Winter Simulation Conference, where we will showcase the latest features in our flagship simulation modeling software. For the past year, we've continued to innovate and develop the most capable and easy-to-use simulation solutions available. Join us for actual examples of how FlexSim has been used to solve problems in manufacturing, healthcare, and logistics. We'd love to show you how FlexSim is the right fit for your simulation needs.
