AUTHOR BIOGRAPHIES

XIAOBING LI has recently graduated from Department of Civil & Environmental Engineering, University of Tennessee, Knoxville. He is a member of the Institute of Transportation Engineers in the U.S. His research focuses on traffic incident management, operations research and simulation. Xiaobing Li has published 9 articles in either peer-review journals or conference proceedings. Those topics range from quality and cost management, operations research, and transportation engineering. His website address is https://www.linkedin.com/in/darrenyanlee/. His e-mail address is xli77@vols.utk.edu.

ASAD J. KHATTAK is Beaman Professor of Civil & Environmental Engineering, University of Tennessee, Knoxville and Transportation Program Coordinator in the Department. He is affiliated with the UT Center for Transportation Research, the Southeastern Transportation Center and NURail University Transportation Center. His research focuses on various types of innovations related to 1)Intelligent Transportation Systems, 2)Transportation Safety, and 3)Sustainable Transportation. He has authored/co-authored 103 scholarly journal articles and 52 technical reports to research sponsors. His website address is https://cee.utk.edu/people/asad-khattak/ and his email address is akhattak@utk.edu.
