AUTHOR BIOGRAPHIES

BEHROUZ ALIZADEH MOUSAVI is PhD Researcher in the Enterprise Research Center at the University of Limerick. He works under WP4 and WP5 of H2020 project Productive4.0. He holds a M.Sc. in Industrial Engineering specialized in project management from the University of Tehran. His research interests include supply chain system analysis and design, complex systems, demand fulfilment and order management systems, business process modelling, multi-paradigm simulation modeling, mathematical optimization, data analysis, and project management. His email address is Behrouz.Mousavi@ul.ie.

RADHIA AZZOUZ has been working as Post-doctoral Researcher in the Enterprise Research Centre at the University of Limerick, Ireland since February 2018. She holds a PhD in computer science from the University of Tunis, Tunisia. Her research interests include multi-objective optimisation; dynamic optimisation; evolutionary algorithms and simulation modeling. She also worked as Software Developer for more than 7 years at Tunisie TradeNet, Tunisia. Her email address is Radhia.Azzouz@ul.ie.

CATHAL HEAVEY is an Associate Professor in the School of Engineering at the University of Limerick. He is an Industrial Engineering graduate of the National University of Ireland (University College Galway) and holds an M. Eng.Sc. and Ph.D. from the same University. His research interests include simulation modeling of discrete-event systems; modeling and analysis of supply chains and manufacturing systems; and decision support systems. His email address is Cathal.Heavey@ul.ie.

HANS EHM is Principal of Logistics Systems of Infineon Technologies AG. He holds degrees in Physics from Germany and a M.S./OSU. In over 20 years in the Semiconductor industry he was granted managing and consulting Positions at Wafer Fabrication, at Assembly & Test and nowadays for the global Supply Chains. He is Board member of camLine Holding AG, an IT company for supply- and quality chains. He led many projects on national and international level in the context of IT, Semiconductor Manufacturing and Supply Chains. He leads the WP7 Exploitation and Dissemination of the co-funded H2020/Excel project Productive 4.0. His email address is Hans.Ehm@infineon.com.
