

STATISTICAL ISSUES IN SIMULATION RESEARCH

Organizer and Moderator

Bruce Schmeiser
School of Industrial Engineering
Purdue University
West Lafayette, IN 47907

The panelists have each provided one or two issues for discussion. For each issue, each panelist will have an opportunity to briefly state a point of view, after which the audience will be encouraged to participate.

Panelists

Bennett L. Fox
Department d'informatique et de
recherche operationelle
Universite de Montreal
Montreal, P.Q. H3C 3J7

Peter A.W. Lewis
Department of Operations Research
Naval Postgraduate School
Monterey, CA 93940

Andrew F. Seila
College of Business Administration
University of Georgia
Athens, GA 30602

James R. Wilson
School of Mechanical Engineering
The University of Texas
Austin, TX 78712

Proceedings of the 1982
Winter Simulation Conference
Highland * Chao * Madrigal, Editors
